**Abstract:** *Everybody was delighted some decades ago to watch on TV or live the magnificent wedding of Prince Charles of Wales and Diana Spencer. Two billion people watched enthusiastically the gorgeous ceremony with the young Prince and the charismatic English aristocratic beauty Diana, with the white and golden carriage and the fascinating white horses, with the never seen before wedding dress with some meter long train and many other embellishments which astonished the audience. But is Monarchy only about show, popularity, fortune, celebrity? In the following paper I will attempt to demonstrate that this is not the case as the institution of monarchy has a formative beneficial influence upon the development of a country's social, cultural and moral development.*

**Key words:** monarchy, empire, governance model, democracy
